

Richard Solnik the bully labeled me a "retard" and falsified a police report. My witnesses reported a demented old lady and her maid for harassing and threatening me. They didn't report me. Therefore, Solnik should be a convicted felon so he'll never arrest anyone ever again.

Solnik pretended not to hear death threats, and vowed revenge because I wouldn't let him and another bully in my apartment without a warrant when a demented old lady didn't comprehend that her maid steals (DUH!) and blames me because I'm an easy target. Months later, Solnik falsely arrested me, accusing me of attempting to assault the demented old lady and the thief. The footage CLEARLY shows I didn't throw my cell phone at them, I threw it at the wall because a violent criminal constantly threatened me and I finally lost my usual cool after nonstop death threats and false accusations.

The maid should've been arrested for stealing from the demented old lady. Instead, Solnik the bully fabricated an outrageous story that Mike Vitale was somehow "Gary from Emmett Street " and "in jail for another robbery" while Mike Vitale wasn't in jail. The cops didn't really think he was "Gary" or "in jail" when he was seen walking by the police station. He also got ticketed for trespassing WHILE Solnik said he was "in jail for another robbery".

Solnik the bully spread rumours to a Hell's Angel who had been "in the service", and that person accused me of "threatening old people".

I wasn't allowed to report Solnik, and (I'd gather) his reign of terror has escalated since to being promoted to Detective.

I tried to save lives by reporting that bully years ago, circa 2011.
